

# MPM SERIES

These compact and powerful Miko Permanent Magnets are used for a wide range of underwater applications.

**MPM 001**

**MPM-001 CS**  
With M8 x 30 mm  
Countersunk Screw

**MPM-002**  
With 5 x 5 mm flange,  
compatible with MHT-002  
Handling Tool

The MPM-series magnets are made up of Neodymium, giving them each a 60kg holding force. In addition, the magnets are epoxy-coated for corrosion resistance in sea water.

Each magnet is individually packed in a custom storage and handling case with a pin-lock mechanism, allowing for safe and practical handling.

Each type is delivered in boxes of 10 pcs, packed in a double-skin container to isolate the magnetic field and prepare the magnets for air freight.

Read "IMPORTANT NOTES ABOUT MIKO MAGNETS" enclosed in each box before use.

## SPECIFICATIONS

**HOLDING FORCE**  
60 KG

**FOOTPRINT**  
40 X 50 MM

**NET WEIGHT**  
0.3 KG

**GROSS WEIGHT (BOX)**  
7 KG

**HEIGHT**  
20 MM

**QUANTITY IN BOX**  
10 PCS

The stated holding force refers to the perpendicular holding force when applied directly onto a clean mild steel plate of minimum thickness 10 mm.
