

Fasteners

Choice in Fasteners;

We as RMN offer a wide range of fasteners. Choice in material types such as steel, stainless steel, brass, nylon, aluminium etc. Also different material strengths.

All products comply to the required standards and can be supplied with or without a surface treatment for the right protection in your application.

We hold stock for many types and sizes to ensure a short delivery time.

RMN can also source special fasteners and we have the possibility to offer custom made solutions. If you want to know more about what is possible for your needs in fasteners, please contact our product specialists.
