

Safety Shoes

Safety Shoes UVEX Quatro Pro S3 SRC lace-up boot 8401/2

Sturdy, modern safety boots and safety shoes with extra-wide fit and sturdy, water-repellent upper for tough outside jobs, for example in the construction industry. The particularly soft midsole and solid PUR outsole guarantee excellent comfort. Uvex Quatro Pro safety shoes feature particularly deep non-slip tread, an injection-moulded scuffcap and support in the arch area. Protection class S3 SRC in accordance with EN ISO 20345:2011. Non-slip outsole, penetration-resistant steel midsole, oil and petrol resistant, water-resistant upper. Sturdy steel toe cap, stabilising heel cap, material-protecting scuffcap. Sturdy water-repellent leather upper. Dirt resistant lacing system. Suitable for orthopaedic adjustments and insoles from uvex medicare. Available in sizes: 38 to 50. Anti-static uvex 3D hydroflex® foam insole for optimal shock absorption around heel and forefoot. Soft padding on collar and padded dust tongue. Ideal foot climate constantly maintained thanks to uvex climazone: breathable textile lining and comfortable climatic insole with a moisture transport system.

Safety Shoes TORNAFORT MF S3 SRC METAL FREE

Modern safety shoe with a composite sole and toe cap, which protects against compression with a force of up to 15kN or the fall of a load up to 20 kg from a height of 1 meter. The anti-static outsole, made from a combination of polyurethane and a very durable rubber guarantees not only comfort but also safety thanks to its anti-slip properties. The sole is resistant against oil and wear. The upper part is made of genuine leather "NUBUCK" and the inner lining of breathable polyester. Reflective elements guarantee increased visibility of the user. This model is equipped with a very comfortable insole, which thanks to the gel heel absorbs shocks even better and give maximum feeling of comfort during work. An extra pair of shoe laces is supplied in the box.
